SITUATION SUMMARY

Oak Incident, Vegetation Fire, Calaveras County (New)

- Location: California Oak Valley Road x Pool Station Road, Copperopolis, Calaveras County
- Jurisdiction: SRA
- Start Date/Time: 06/22/14 1237 hours
- 90 Acres, 75 % contained
- Forward spread has been stopped
- Copperopolis Elementary School evacuation shelter has been closed
- All evacuation orders have been lifted
- 1 outbuilding destroyed

Brand Incident, Vegetation Fire, Los Angeles County (New)

- Location: Brand Park, City of Glendale, Los Angeles County
- Jurisdiction: LRA
- 150 Acres
- Forward rate of spread stopped, continued containment and mop up
- 5 hikers were safely extracted on 06/22/14; 3 were extracted via helicopter
- No evacuations reported

Significant Weather

- Fire Weather Watch in effect from 1100 – 2300 hours on 06/25/14 for portions of El Dorado, Placer, Nevada, Mono, Alpine, and Madera Counties.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

High pressure will remain in control of the weather pattern for another day or two. Expect sunshine and seasonably warm temperatures inland while overnight and morning clouds along the coast and adjacent river valleys become more persistent.

San Francisco Weather:

Seasonable weather will continue through Tuesday with highs 60s near the coast, 70s around the bay and 80s farther inland. An upper trough will move across Northern California around midweek. Precipitation with this system will most likely remain over far Northern California and the northern Sierra Nevada although there is a slight chance of light rain across portions of the San Francisco Bay Area on Wednesday night and Thursday. High pressure will rebuild by next weekend and temperatures will trend above normal.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Weak high pressure will persist over the Sacramento Valley for fair and slightly warmer than normal conditions next couple of days. Slightly cooler weather can be expected with a slight chance of showers Wednesday/Thursday. Flat high pressure returns for warming next weekend.

Hanford Weather:

Near normal daytime high temperatures and mostly clear skies with the occasional passing high cloud as weak high pressure prevails over the area. Gusty winds and cooling temperatures are possible later in the week as an upper level system brushes Central California.

WEATHER SYNOPSIS BY REGION: (Cont.)

SOUTHERN CALIFORNIA:

Los Angeles Weather:

An upper level ridge of high pressure will build into Southern California Monday through Wednesday bringing warmer weather by Tuesday. Cooler conditions are possible by the end of the week as an upper level trough of low pressure develops. Warmer weather should move back in by next weekend due to another upper level ridge of high pressure. Marine layer clouds can be expected each night and morning for the coast and some valleys. Breezy winds will affect mainly the mountains and Antelope Valley.

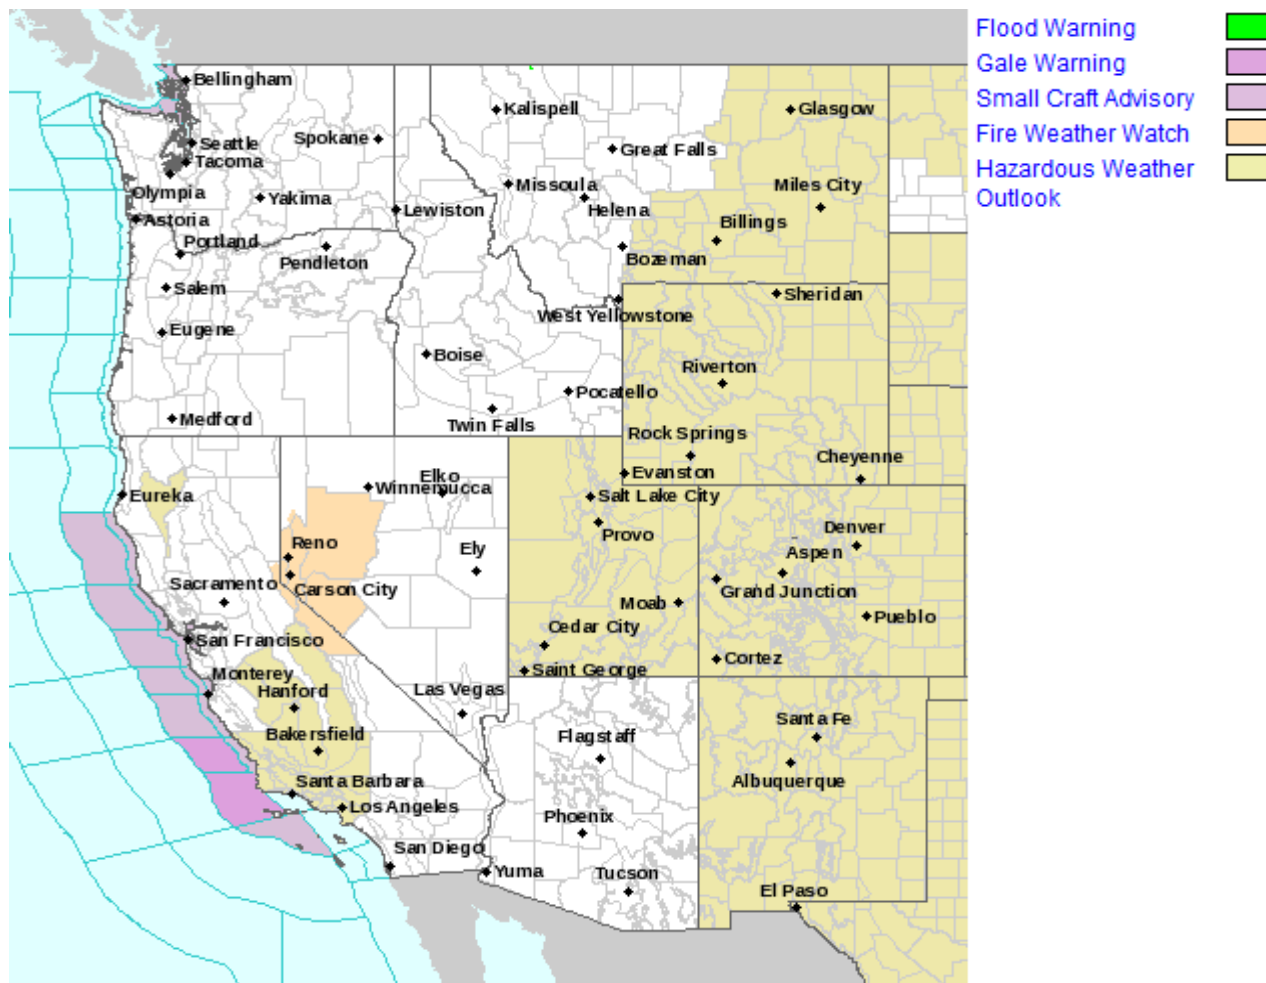

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Onshore flow will maintain seasonal weather for the next week with gusty west winds in the mountains and deserts each late afternoon through late at night.

Southeast California Weather:

Nearly cloudless skies, typical afternoon breeziness and persistence forecast for temperatures this week. A more organized Pacific low will develop Thursday resulting in stronger afternoon winds. A warming trend is expected by the weekend with even warmer temperatures possible by next week as strong high pressure builds into Southeastern California.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

Cal EOC Incident – 2014 Drought

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

On April 25, 2014 Governor Brown released an Executive Order on Friday enabling several urgent actions to be taken as the drought persists into the state's traditional dry season.

** As this rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly over the coming months. This winter's below average rain and snowfall worsens conditions in this third straight dry year.**

Situational Summary (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The final manual snowpack survey of the season was conducted on Thursday (May 1) and showed California snowpack at 18% of normal.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

U.S. Drought Monitor

California

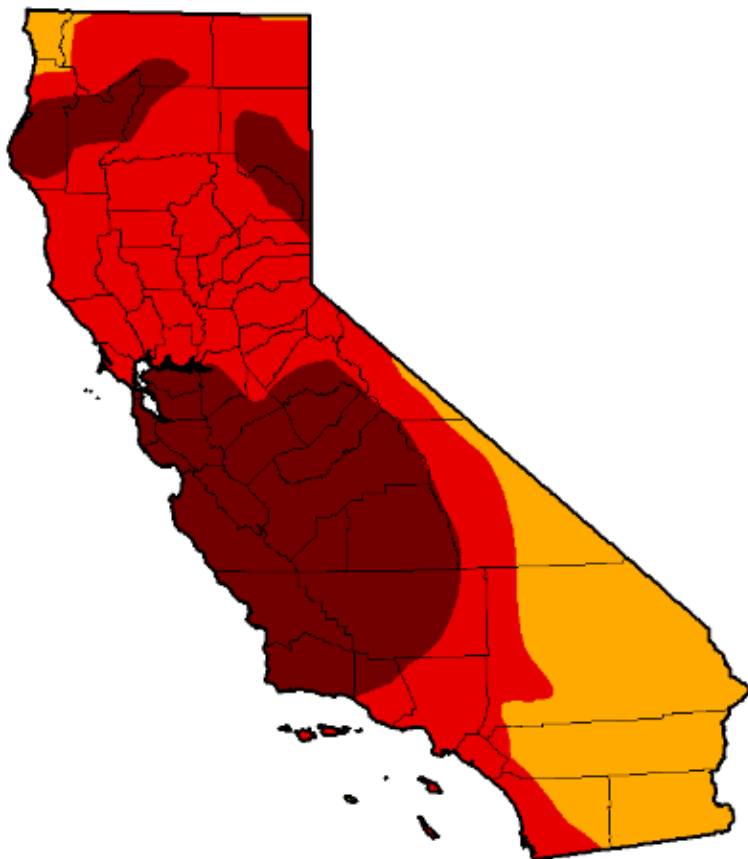

June 17, 2014

(Released Thursday June 19, 2014)

Valid 8 a.m. EDT

Drought Condition (Percent Area):

CAL OES MISSIONS

Closed Cal OES Missions

- **2014-LAW-3907, Update:** Per Cal OES Law Duty Officer (LDO), Mono and Tuolumne County SAR personnel hiked into the scene and stayed the night with the individuals needing assistance; all parties walked out the morning of 06/22/14. Mission Closed. **Situation:** The Air Force Rescue and Coordination Center (AFRCC) reported a PLB sounding near Molo Mountain and Leavitt Peak, Tuolumne County. On 6/21/14 at 2004 hours, a CHP helicopter has located four victims and are planning an extraction. As of 2134 hours, Tuolumne County Sheriff's Department has personnel with the victims and evaluating extraction options.
- **2014-LAW-3898, Update:** Per Cal OES Law Duty Officer, the training has been completed. Mission Closed. **Situation:** Tuolumne County Sheriff's SAR team will participate in a multi agency helicopter training. The training will include orientation to the Helicopter and its capabilities. Participating agencies will include Calaveras and Stanislaus County. Stanislaus County will be providing the helicopter resource for this training event. The Cal OES LDO coordinating resources.
- **2014-LAW-3871, Update:** Search efforts on 6/22/14 were unsuccessful. Ventura County has suspended the active search and released all mutual aid resources. Over the next two days, Ventura County will maintain a small presence at the Incident Command Post to monitor for additional information. Mission Closed. **Situation:** Ventura SO is requesting SAR mutual aid to assist in the search for a 34 year old off-duty Arcadia firefighter missing since Friday evening in the Los Padres National Forest, North of Fillmore, Ventura County. The MP was camping with a fellow fire fighter and, while at their camp, chased after his dog which had run off; he hasn't been seen since.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
